Foreword

In 2005, a new generation of the TOEFL test, the Internet-based test, or TOEFL *iBT*, was first offered in the US and soon phased in to the rest of the world. Unlike any previous version, TOEFL *iBT* tests all the four language skills that test takers need for effective communication: listening, speaking, reading, and writing. For the first time in the history of the TOEFL, speaking is tested directly and becomes a test section in its own right.

LinguaForum TOEFL *iBT* *i-Speaking* (New Edition) has been designed to help you prepare for both the Independent and the Integrated tasks of the TOEFL *iBT*. Special features of this book include:

- Overviews of Independent and Integrated Speaking tasks where you can find essential information related to each task such as directions, question types, general strategies to deal with the task and sample questions
- Practical techniques to help you brainstorm and organize ideas as well as deliver your responses fluently and accurately
- Templates to effectively frame your answers
- An integrated workbook to provide extensive practice on task skills and two important areas: pronunciation and grammar
- Practice exercises and two complete speaking tests to monitor your progress and familiarize you with the actual test format and timing

The TOEFL *iBT* Speaking section has been considered by many test takers to be the hardest one, considering its format and timing. While it may pose a big challenge for you to achieve a high score, it does not mean that a high score is impossible (as many people tend to believe). If you understand very clearly what is required from the tasks and study with clear objectives in mind, you can surely achieve your target score, no matter how high it is.

TOEFL *iBT* Speaking

Structure

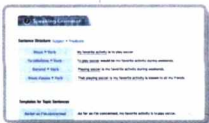

PART A Independent Tasks

This section helps you understand what is required from the Independent Speaking tasks through explanations, sample questions and answers. It also walks you through the three-step strategy to tackle the tasks:

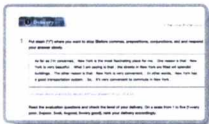

Outlining

This step helps you brainstorm and organize your ideas for the responses.

Speaking Grammar

This step quickly reviews key structures and introduces useful templates to frame your responses.

Delivery

This step helps you practice producing your responses and self-assess your delivery.

PART B Integrated Tasks

This section helps you understand the Integrated Speaking tasks through explanations, sample questions and answers. Again, three steps to deal with the Integrated Speaking tasks are introduced:

Outlining

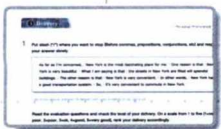

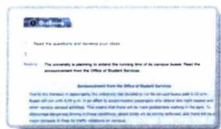

This step helps you organize ideas for your responses to the tasks. For Tasks 3 and 4, you will take notes based on your reading and listening. For Tasks 5 and 6, you will take notes based on your listening only.

Speaking Grammar

This step quickly reviews key structures related to the content of the reading/listening passages and introduces useful templates to frame your responses.

Delivery

This step helps you practice producing your responses and self-assess your delivery.

PART C Actual Tests

Two actual tests are provided to help you check progress and further familiarize yourself with the test format and timing.

Workbook & Answer Key

The workbook contains practice material on essential skills specific to the two types of TOEFL iBT i-Speaking tasks and practice exercises on pronunciation and grammar. The Answer Key provides answers to all practice exercises and the actual tests.

Contents

PART A Independent Tasks

Task 1. Personal Preference	18
Task 2. Paired Choice	32

PART B Integrated Tasks

Task 3. Fit & Explain	60
Task 4. General / Specific	74
