Thema

Trade and Quality of Life - Empirical Evidence for Sub-Saharan Africa

Dissertation

zur Erlangung des akademischen Grades
doctor rerum politicarum
(Dr. rer. Pol.)

vorgelegt dem
Rat der Wirtschaftswissenschaftlichen Fakultät
der Friedrich-Schiller-Universität Jena

am 23.05.2018

von: M.Sc. Huy Quang Doan
geboren am: 21.01.1987 in: Thai Nguyen, Vietnam

Gutachter

1. Prof. Dr. Andreas Freytag, Friedrich-Schiller Universität Jena
2. PD Dr. Holger Graf, Friedrich-Schiller Universität Jena

Datum der Verteidigung: 25.09.2018

„No nation was ever ruined by trade."

Benjamin Franklin

(1706 - 1790, US-amerikanischer Politiker, Naturwissenschaftler, Erfinder und Schriftsteller)

TABLE OF CONTENTS

Chapter 1: INTRODUCTION 12
1.1. Motivations of the dissertation 12
1.2. The issue and major contributions 13
1.3. Trade status in Sub-Saharan Africa 18
1.3.1. Imports 18
1.3.2. Exports 20
1.4. Quality of Life and its dimensions 23
1.4.1. Concept of Quality of Life 23
1.4.2. Dimensions of Quality of Life 25
1.5. Structure of the dissertation 28
Chapter 2: HOW DOES TRADE AFFECT FOOD SECURITY IN SUB-SAHARAN AFRICA? 34
2.1. Introduction 34
2.2. Literature review 37
2.2.1. Concepts and measurements of food security 37
2.2.2. Problem of trade indicators in previous studies 38
2.2.3. How trade influence food security? Theoritical approaches and hypotheses 39
2.3. Empirical Evidence 45
2.3.1. Model Specification and estimation methods 45
2.3.2. Data 48
Composite index for food security 50
2.4. Findings and discussions 54
2.4.1. Trade, real income, agricultural production and food security 54
2.4.2. Trade, Food Prices and Food Security 58
2.4.3. Trade, transportation infrastructure and food security 60
2.4.4. Trade, Natural Resources and Food security 61
2.5. Conclusions 65
Chapter 3: TRADE, INSTITUTIONAL QUALITY AND INCOME: Empirical Evidence for Sub-Saharan Africa 68
3.1. Introduction 68
3.2. Literature review 69

3.2.1. GDP as a measure of income and its constraints 69
3.2.2. Trade and income 71
3.3. Methodology 73
3.3.1. The model specification 73
3.3.2. Data and hypotheses 73
3.3.3. Estimation methods 76
3.4. Findings and discussions 78
3.4.1. Static setting 79
3.4.2. Dynamic settings 83
3.4.3. Short-term and long-term effects 86
3.5. Conclusions 89
Chapter 4: TRADE, INSTITUTION QUALITY AND INCOME DISTRIBUTION: Kuznets' Hypothesis and Moderation Effects 92
4.1. Introduction 92
4.2. Literature review 94
4.2.1. Income distribution and Gini limitations 94
4.2.2. How does trade influence income distribution? 98
4.2.3. New theoretical approaches and hypotheses 106
4.3. Empirical approach 109
4.3.1. Model specification and estimation methods 109
4.3.2. Data 111
4.4. Findings and discussions 114
4.5. Conclusions 121
Chapter 5: TRADE AND ENVIRONMENT 123
5.1. Introduction 123
5.2. Literature review 126
5.2.1. How trade influences environment quality 126
5.2.2. Previous empirical evidence 128
5.3. Theoretical approach 130
5.3.1. Pollution haven hypothesis and factor endowment hypothesis 130
5.3.2. Race-to-the-bottom and gains-from-trade-hypotheses 132
5.3.3. Environmental Kuznet's curve 133
5.3.4. Role of environment regulations 134
5.3.5. Hypothesis 135

5.4. Empirical evidence 138
5.4.1. Model specification, estimation strategy and data 138
5.4.2. Data Sources 139
5.4.3. Empirical results 141
5.5. Conclusions 152
Chapter 6: DOES GLOBALISATION IMPROVE EDUCATION OUTCOMES? 154
6.1. Introduction 154
6.2. Literature review and theoretical approaches 154
6.3. Empirical evidence 157
6.3.1. Hypothesis 157
6.3.2. Model Specification and Estimation Procedure 157
6.3.3. Data 158
6.4. Results and Discussion 159
6.4.1. Globalisation and Educational Enrolment 159
6.4.2. Globalisation and Education Achievements 161
6.4.3. Globalisation and the Quality of Instructors 163
6.5. Conclusion 164
Chapter 7: CONCLUSIONS 166
