

# An Introduction to French Pronunciation

---

**Blackwell Reference Grammars**  
General Editor: Glanville Price

The *Blackwell Reference Grammars* are essential companions for students of modern languages at senior secondary school and undergraduate level. The volumes provide a comprehensive survey of the grammar of each language and include plentiful examples. The series will cover the major European languages, including French, German, Spanish, Portuguese, and Russian.

20.6	Imperative Sentences	153
20.7	Level Intonation	155
	References and Further Reading	157
	Index	159

# Preface

---

Advantage has been taken of this second edition of a book first published in 1991 to make a few minor corrections and to introduce a small number of other changes, particularly by way of updating the bibliographical references. But in its essentials it remains the same book and the pagination of the original edition has been retained.

I am grateful to those colleagues who have written to me or to the publishers to plead for a reprint or to make constructive suggestions. My especial thanks go to Dr Mari C. Jones of the University of Cambridge for her invaluable advice and assistance in the preparation of this edition.

G. P.
