About the author

Ray Tricker (MSc, IEng, FIET, FCMI, FCQI, FIRSE) is the Senior Consultant (Management Systems) of Herne European Consultancy Ltd (a company specializing in business enhancement and outsourced back office functions). He is also an established author (over 27 titles published). He served with the Royal Corps of Signals (for a total of 37 years), during which time he held various senior managerial posts, culminating in being appointed as the Chief Engineer of NATO's Communication Security Agency (ACE COMSEC).

Most of Ray's work since joining Herne has centred on the European railways. He has held a number of posts with the Union International des Chemins de Fer (UIC) (e.g. Quality Manager of the European Train Control System (ETCS)) and with the European Union (EU) Commission (e.g. T500 Review Team Leader, European Rail Traffic Management System (ERTMS) Users Group Project Co-ordinator, HEROE Project Co-ordinator), and currently (as well as writing books on diverse subjects such as optoelectronics, medical devices, ISO 9001:2008, building, wiring and water regulations for Routledge) he is busy assisting small businesses from around the world (usually on a no-cost basis) to produce their own auditable quality and/or integrated management systems to meet the requirements of ISO 9001:2000, ISO 14001 and OHSAS, etc. He is also a UKAS Assessor for the assessment of certification bodies for the harmonization of the trans-European high-speed rail network.

Recently he was appointed as the Quality and Safety Manager for the Project Management Consultant overseeing the multi-billion dollar Trinidad Rapid Rail System, and is currently the Quality Director for the Independent Safety Authority for a multi-billion dollar Abu Dhabi rail project (one day he might retire!).

Contents

| | |
|--|-----------|
| <i>Preface</i> | x |
| <i>Foreword</i> | xx |
| | |
| 1. Introduction | 1 |
| 1.1 Historical background | 2 |
| 1.2 What does BS 7671:2008 contain? | 4 |
| 1.3 What are the objectives of the IET Wiring Regulations? | 7 |
| 1.4 What is the legal status of the IET Wiring Regulations? | 8 |
| 1.5 What do the IET Wiring Regulations cover? | 8 |
| 1.6 What effect does using the Regulations have on other Statutory Instruments? | 11 |
| 1.7 How are the IET Wiring Regulations implemented? | 20 |
| | |
| 2. Domestic buildings | 23 |
| 2.1 The Building Act 1984 | 23 |
| 2.2 Who polices the Building Act? | 24 |
| 2.3 What are the Supplementary Regulations? | 25 |
| 2.4 The Building Regulations | 26 |
| 2.5 Approved Documents | 27 |
| 2.6 What about the rest of the UK? | 29 |
| 2.7 Electrical safety | 31 |
| 2.8 What is the aim of Approved Document P? | 32 |
| 2.9 What inspections and tests will have to be completed and recorded? | 39 |
| 2.10 Requirements from the Approved Documents | 42 |
| | |
| 3. Earthing | 62 |
| 3.1 What is Earth? | 64 |
| 3.2 What is meant by 'earthing' and how is it used? | 64 |
| 3.3 Conductor arrangement and system earthing | 66 |
| 3.4 Current-carrying conductors | 67 |
| 3.5 Advantages of earthing | 68 |
| 3.6 What types of earthing system are there? | 70 |
| 3.7 Earthing points | 77 |
| 3.8 Main earthing terminals | 79 |

| | | |
|-----------|---|------------|
| 3.9 | Earth electrodes | 80 |
| 3.10 | Earthing conductors | 81 |
| 3.11 | Earth fault loop impedance | 82 |
| 3.12 | Requirements from the Regulations | 83 |
| 4. | Safety protection | 144 |
| 4.1 | Basic safety requirements | 145 |
| 4.2 | Basic protection against electric shock | 152 |
| 4.3 | Fault protection (protection against indirect contact) | 160 |
| 4.4 | Protection against both direct and indirect contact | 164 |
| 4.5 | Additional requirements | 166 |
| 5. | Electrical equipment, components, accessories and supplies | 204 |
| 5.1 | Installation | 204 |
| 5.2 | Fuses | 207 |
| 5.3 | Heaters | 215 |
| 5.4 | Luminaires | 221 |
| 5.5 | Plug and socket-outlets | 237 |
| 5.6 | Protection by residual current devices | 244 |
| 5.7 | Residual current monitors | 254 |
| 5.8 | Rotating machines and motors | 255 |
| 5.9 | Supplies | 255 |
| 5.10 | Switches | 265 |
| 5.11 | Rectifiers | 281 |
| 5.12 | Transformers | 283 |
| 6. | Cables and conductors | 285 |
| 6.1 | Cables | 285 |
| 6.2 | Conductors and conduits | 315 |
| 7. | Special installations and locations | 381 |
| 7.1 | General requirements | 382 |
| 7.2 | Special installations and locations | 388 |
| 7.3 | Requirements of the Regulations | 392 |
| 8. | External influences | 477 |
| 8.1 | Environmental factors and influences | 478 |
| 8.2 | Ambient temperature | 482 |
| 8.3 | Solar radiation | 497 |
| 8.4 | Humidity | 502 |
